BACKLINE RIDER

DRUM KIT

4-piece drum kit of professional quality (Rogers, Ludwig, Sonor, Pearl, Tama) consisting of (sizes can be approximated):

- 22" bass drum (with foot pedal)
- 14" snare drum
- 12" tom
- 16" floor tom

Cymbals:

- 14" high-hat (2 cymbals and stand)
- 16" to 18" crash (2 cymbals and stands)
- 20" ride cymbal; 1

BASS GUITAR AMPLIFIER

One bass amplifier must be at least 200 watts of power and contain at least one 15" speaker or four 10" speakers.

GUITAR AMPLIFIERS

- 2 electric guitar amplifiers are required, each to be at least 30 watts (RMS) of power and contain at least one 12" speaker.
- If possible, additionally, 2 acoustic guitar amplifiers will be a big help

KEYBOARD AMPLIFIERS

Two keyboard amplifiers, each must be at least 60 watts of power and contain at least one 12" speaker. Preferable is 100 watts or more and at least one 15" speaker.

ESSENTIAL ACCESSORIES

- 1 three-tier keyboard stand.
- 1 single-tier keyboard stand.
- 4 guitar stands.
- 1 microphone stand must be a straight stand, or convertible to straight stand, for lead vocalist.

NOTE: For overseas travel, the band will likely also request guitars:

- 1 high-quality, solid-body guitar with Humbucker pickup in the bridge position (such as Gibson SG) with ".10" gauge strings (usually 10, 13, 17, 26, 36, 46)
- 1 high-quality, semi-hollow body guitar with single-coil pickups (such as Epiphone Casino) with ".10" gauge strings (usually 10, 13, 17, 26, 36, 46)
- 1 high-quality, solid-body, 4-string bass guitar (preferably Fender Jazz with round wound strings, gauge 45 - 105)
- 1 Line 6 Variax 600 or James Tyler Variax (jtv-69) guitar with ".09" gauge strings

Please contact the band if any issues.
