AfterFab, a tribute to the Beatles solo years

POSTED: 11/08/2014 03:00:00 AM EST

PUTNEY - AfterFab is not your typical tribute band, and the genius of The Beatles didn't stop at Abbey Road. AfterFab, the only band doing this kind of unique Beatles show, draws from the vast catalog of the brilliant solo careers of Lennon, McCartney, Harrison, and Starr and brings it to life with high energy and high fidelity. AfterFab is coming to the historic village of Putney on Saturday, Nov. 15 to relive the music of these iconic artists in the intimate 160-seat Next Stage Arts Project theater located at 15 Kimball Hill right in the village center. This beautiful, historic building was a former church built in 1841, and its restoration is part of Next Stage Arts Project's mission to foster fine and performing arts in downtown Putney.

From Band on the Run and It Don't Come Easy, to Imagine and What Is Life, AfterFab's performances give the audience a taste of what it would be like if The Beatles hadn't broken up in 1970. Faithful renditions of the songs are what Beatles fans appreciate, and this six-piece band are no impersonators. It's all about the music -- classic songs, accurately arranged like the studio versions, which not all tributes do. Rarely did the solo Beatles do that when playing their own music live. Fans applaud this approach and experience the live renderings of the songs the way they know and love them.

The show starts at 7:30 p.m. at Next Stage Arts Project theater

15 Kimball Hill Rd.

Putney, Tickets are $18 general admission, $16 seniors and students.
